

Prince Sultan Bin Abdulaziz International Prize for Water

Guide to Using the Online Application Form

Specialized Prizes – 13th Award 2028

A New Nomination

Individuals and research teams desiring to nominate themselves for one of PSIPW's four Specialized Prizes should go to the PSIPW website and click on the "Open New Nomination" link on the left-hand menu. This will open a page asking which nomination form you wish to access.

For individuals and research teams wishing to nominate themselves to the Prize, they must choose the Specialized Prizes.

An organization wishing to nominate other researchers to the Prize for interdisciplinary work has the option to choose the Creativity Prize. (The Creativity Prize is not by self-nomination.) The Creativity Prize version of this guide should then be referred to.

Prince Sultan Bin Abdulaziz International Prize for Water

Home | Nomination Info | Existing Nomination | Creativity Prize | Specialized Prizes

Please Select the Appropriate Nomination Form

Creativity Prize	Specialized Prizes
Value: \$260,000	Value: \$130,000 (each prize)
Nominators: universities; university departments; research institutes; companies; water organizations and agencies	Nominators: self nomination
Candidates: interdisciplinary research teams	Candidates: individual researchers, research teams
Eligible Works: published research papers, published books, and registered patents within the past 5 years	Eligible Works: published research papers, published books, and registered patents within the past 5 years

NEXT

Select the **Creativity Prize** if you represent a university, university department, or other water-related organization and wish to nominate the innovative work of an interdisciplinary research team. The nominees may or may not be employees or affiliates of your organization. However, please know that as a representative or head of your organization, you may not nominate yourself to this Prize.

[Download Application Guide for Creativity Prize \(PDF\)](#)

NEXT

Select the **Specialized Prizes** if you are an individual or research team, and you wish to nominate your own innovative work relating to the fields of Surface Water, Groundwater, Alternative Water resources, or Water Management & Protection.

[Download Application Guide for Specialized Prize \(PDF\)](#)

If you have any questions about the application form or need any technical assistance with the application process, please contact us at: help@psipw.org

Choosing a Specialized Prize

Under the heading “**New nomination: Please register**”, select the Prize you wish to apply to from the pull-down menu. Register with a username, password, and e-mail address.

You should carefully select the Specialized Prize you wish to apply for. However, it will be possible for you to change your selection later on to one of the other Specialized Prizes. It is not possible, on the other hand, to change from a Specialized Prize to the Creativity Prize. That requires opening a new application.

Please Select Your Specialized Prize

Each of the four **Specialized Prizes** is dedicated to the wide range of research topics that fall within its scope. Nominations are open to all innovative and current research that is relevant to one of our four Prizes, which together cover the entire water research landscape.

Some of the many topics that are relevant to each Prize are as follows:

Surface Water Prize	Groundwater Prize
Water Harvesting Rain & Runoff Water Modeling Effects of Global Warming on Precipitation Flood Mitigation & Control Evaporation & Transpiration Sedimentation Control in Surface Water Systems And all other topics related to surface water	Groundwater Recharge Groundwater Exploration & Assessment Groundwater Contamination Aquifer Characteristics Pumping Tests And all other topics related to groundwater
Alternative Water Resources Prize	Water Management & Protection Prize
Desalination Wastewater Treatment Water Reclamation, Purification & Recycling Innovative Water Production Methods Cloud Seeding Fog & Dew And all other topics related to alternative water resources	Integrated Water Resources Management (IWRM) Water Conservation Water Demand Management Water Pollution Control Sustainability of Water Resources Irrigation Water Management & Conservation And all other topics related to the management and protection of water resources

PSIPW welcomes nominations for all of its Prizes that employ GIS, remote sensing, and other current technologies to provide innovative solutions to water-related problems.

Choose the Prize for which you wish to nominate your work:

Upon successfully registering, you will see the notice pictured to the right informing you that you may log in and continue with the application process. You can log in in at the “Existing Nomination” tab with the username and password that you chose for yourself upon registering.

The first time that you log in, you will be asked to click on a button saying “Yes, I want to apply.” Click on it.

Filling out the Nominee Profile

This is essentially the “written” application form. Here is where the nominee gives all required personal details and specifies the number of works that are going to be submitted with the nomination.

There are five fields for team members and an area for the team representative to provide personal details. The specific details of the other team members are not required.

If a nominee wishes to make an individual nomination without including other team members, they should simply leave the team member fields blank. The example given to the right is of an individual scientist nominating herself to the Prize and submitting five works.

Nominee Profile

- [Modify This entry](#)

It is possible to modify the Prize category and Nominee Profile at the top of the **Control**

Panel & Upload Page. If you wish to update your personal information, you may do so by clicking **Modify This entry** next to the heading “Nominee Profile”. This will take you back to the page pictured to the right.

On this page, you may also change the number of works you wish to nominate. Increasing the number of works you wish to nominate is simple. Just click the radio button for the new number. **However, be careful if you reduce the number of works.** If you have already uploaded your works, reducing the number may result in the loss of a work that you intend to submit.

The number of works specified is reflected in the middle of the **Control Panel & Upload Page.** Here is where you will submit the works you wish to nominate for consideration.

Submitting Works

Works are submitted in the middle of the **Control Panel & Upload Page**. The number of works appearing in this section reflects the number of works you have specified. If a work has not yet been submitted, a message in red will appear next to it:

“You have not submitted this work yet”

Works to be submitted (5)

- ★ Work# 1 – You have not submitted this work yet
- ★ Work# 2 – You have not submitted this work yet
- ★ Work# 3 – You have not submitted this work yet
- ★ Work# 4 – You have not submitted this work yet
- ★ Work# 5 – You have not submitted this work yet

When you click on one of the works, a link will be made available for submission of that work.

Works to be submitted (5)

- ★ Work# 1 – You have not submitted this work yet
– **Submit This work**
- ★ Work# 2 – You have not submitted this work yet
- ★ Work# 3 – You have not submitted this work yet
- ★ Work# 4 – You have not submitted this work yet
- ★ Work# 5 – You have not submitted this work yet

Clicking on – **Submit This work** will take you to the page pictured to the right.

Step 5 – Work #1 Information

Type of Work * Published Research Paper Published Book Registered Patent Published Software Please Select a type of work

Title *

LANGUAGE SECTION

Language * English Other *If this work was published in other than English, select [Other].*

Original Language *Please specify the original language of the published work if it was published in other than English.*

UPLOAD DOCUMENTS (in PDF format)

Abstract Document No file chosen *Upload a separate abstract of roughly 1000 words describing the objectives, methodology and results of the work. This abstract must be in English.*

Full Document No file chosen *Upload the full published research paper, published book, or registered patent here in the original language of publication.*

English Translation No file chosen *Upload a PDF copy of your English translation here if the original published work is not in English.*

* (mandatory for works published in other than English)

For Patent Only No file chosen *If the nominee has published an article about the patent in an academic journal and wishes to submit this article as part of the nomination, the article about the patent should be submitted here as a separate file.*

On this page, you upload a pdf file for the work you wish to submit.

First, you designate what type of work it is. Then you enter its title in full. If the work is originally published in English, click the “English” radio button. If it is published in any other language, click the “Other” button and specify the language of publication in the space provided.

You must upload an abstract of the work as a separate pdf file and the full document of the work itself in the appropriate places. An English translation of the work is required only if the original work was published in other than English.

The extra published article for patents is optional.

Step 5 – Work #1 Information

Type of Work * Published Research Paper Published Book Registered Patent Published Software

Please Select a type of work

Title *

LANGUAGE SECTION

Language * English Other

If this work was published in other than English, select [Other].

Original Language

Please specify the original language of the published work if it was published in other than English.

UPLOAD DOCUMENTS (in PDF format)

Abstract Document No file chosen

*Upload a separate abstract of roughly 1000 words describing the objectives, methodology and results of the work. **This abstract must be in English.***

Full Document No file chosen

*Upload the full published research paper, published book, or registered patent here in the **original language of publication.***

English Translation * No file chosen

*Upload a PDF copy of your **English translation here** if the original published work is not in English.*

(mandatory for works published in other than English)

For Patent Only No file chosen

If the nominee has published an article about the patent in an academic journal and wishes to submit this article as part of the nomination, the article about the patent should be submitted here as a separate file..

Once you have submitted a work, you will return to the Control Panel & Upload Page. The work will be designated as **Completed**, as seen below.

Works to be submitted (5)

- ★ Work# 1 – Completed
- ★ Work# 2 – You have not submitted this work yet
- ★ Work# 3 – You have not submitted this work yet
- ★ Work# 4 – You have not submitted this work yet
- ★ Work# 5 – You have not submitted this work yet

You can still go back at any time and replace the uploaded files if you wish, as long as you have not submitted your entire application.

Also, it is not necessary to upload all required files for a particular work at the same time. You may upload the abstract first and the full work at a later time. If you do so, the work will be designated as **Incomplete** on the **Control Panel & Upload Page**, as seen below.

Works to be submitted (5)

- ★ Work# 1 – Completed
- ★ Work# 2 – Incomplete
- ★ Work# 3 – You have not submitted this work yet
- ★ Work# 4 – You have not submitted this work yet
- ★ Work# 5 – You have not submitted this work yet

To update or change a submission, click on the Completed or Incomplete Work. The information on the work will be displayed as seen to the right. Then click on – **Modify This work**.

Works to be submitted (5)

- ★ Work# 1 – Completed
- ★ Work# 2 – Incomplete

– **Modify This work**

- ★ Work# 4 – You have not submitted this work yet
- ★ Work# 5 – You have not submitted this work yet

Submitting General Documents

At the bottom of the **Control Panel & Upload Page**, all documentation that is required for the nomination is submitted in PDF format. Click the “Submit or Modify” link on the right-hand side of the General Documents table to submit or replace a document.

General Documents			
General Documents	Document To Upload	Date Submitted	Submit or Modify
Curriculum Vitae (team leader/representative)	You have not submitted this document yet		Submit or Modify
List of Nominated Works & Their Authors	You have not submitted this document yet		Submit or Modify

This will take you to the page where the particular document is uploaded.

List of Nominated Works & Their Authors

Document to upload No file chosen

Upload a single-page PDF document that declares where the nominated works are published or patented. For example, if you nominated 5 works, there should be 5 short citations, one for each work uploaded. Any standard citation format is acceptable. In the case of patents, give the patent registration number, the country of the patent office, and the date the patent was awarded. Also, in the event that an un-nominated author appears in the majority of the nominated works, a brief justification should be given for not including that author in the nomination.

Once a document is submitted, the text “You have not submitted this document yet” will be replaced by a link to the uploaded document. Clicking on the link will open the document.

General Documents			
General Documents	Document To Upload	Date Submitted	Submit or Modify
Curriculum Vitae (team leader/representative)	You have not submitted this document yet		Submit or Modify
List of Nominated Works & Their Authors	https://www.psipw.org/media/uploads/2020-02-23-test12-BAIFprofile.pdf	23-02-2020	Submit or Modify

Description of General Documents

There are only two required General Documents that must be submitted for the Specialised Prizes in PDF format.

[1] The “**Curriculum Vitae**” will be submitted for the nominee if the nominee is an individual. If the nomination is for a research team or group, then the CV will be needed only for the group representative.

[2] The “**List of Nominated Works and their Authors**” document is a single-page document that declares where the nominated works are published or patented. This is only to confirm that the nominated works are indeed published or are registered patents, since only published works and registered patents are eligible for nomination. For example, if you nominated 5 works (which is the maximum number that you can nominate), there should be 5 short citations, one for each work uploaded. Any standard citation format is acceptable. In the case of patents, give the patent registration number, the country of the patent office, and the date the patent was awarded.

Also, in the event that an individual nominee submits an article, book, or patent which has multiple authors, a brief justification should be given for nominating as an individual and not as a group. This is especially important where the other name appears on most or all of the nominated work. This also applies to group nominations, where other un-nominated authors appear in the nominated works.

Checking & Submitting Your Application

At any time, you can check to see what information or documentation is still required to complete your application by clicking on the orange “Check your application” button at the top of the **Control Panel & Upload Page**.

In the illustration, the nominee’s information is complete. However, Work #2 is missing its full document, and Work #5 needs to be submitted in full, the documents of which need to be uploaded in PDF format in the **Works to Be Submitted** section. Also, this nominee’s Curriculum Vitae still needs to be uploaded in PDF format in the General Documents section. Then this person’s application will be complete.
